OPIOID OVERDOSE EMERGENCY DEPARTMENT VISITS

Cleveland County

31 OPIOID OVERDOSE EMERGENCY DEPARTMENT VISITS

Opioid Overdose ED Visits by Month:
Cleveland County 2019 YTD

Opioid Overdose ED Visits by Race Ethnicity*

Cleveland Population Estimate
Cleveland opioid overdose ED Visits, 2019 YTD

Opioid Overdose ED Visits by Age Group

Count based on ICD-10-CM diagnosis code of an opioid overdose: T40.0 (Opium), T40.1 (Heroin), T40.2 (Other Opioids), T40.3 (Methadone), and T40.4 (Other Synthetic Narcotics), and T40.6 (Other and Unspecified Narcotics).

Note: NC DETECT is North Carolina’s statewide syndromic surveillance system. There may be data quality issues affecting our counts: counties with <10 cases may not be true lack of opioid overdose cases but data quality issues; additionally, some hospitals use nonspecific poisoning codes rather than specific opioid poisoning codes. For training on NCDETECT, contact Amy Ising, ising@ad.unc.edu.

**Non-hispanic, except when ethnicity data are missing; if ethnicity is missing race categories include both Hispanic and Non-Hispanic.
