822 All opioid overdose ED visits: June 2020*

Compared to 641 June 2019

The highest counts by city of residence occurred in:

Mecklenburg, Wake, Durham, Guilford, and New Hanover counties.

The highest rates of visits (≥10) per 100,000 residents occurred in:

Robeson (22), Stokes (22), Wilson (20.9), Randolph (19.5), and Rockingham (17.6) counties.

Note: NH (Non Hispanic). Counts based on diagnosis (ICD-9/10-CM code) of an opioid overdose of any intent (accidental, intentional, assault, and undetermined) for North Carolina residents. *Emergency department visit data from NC DETECT are provisional and should not be considered final. There may be data quality issues affecting our counts: counties with <10 cases may not be true lack of opioid overdose cases but data quality issues; additionally, some hospitals use non-specific poisoning codes rather than specific opioid poisoning codes.
