

SURVEILLANCE UPDATE

Intimate Partner Violence: 2011 N.C. Youth Risk Behavior Survey (YRBS)

Percentage of N.C. high school students who were physically hurt on purpose by their boyfriend or girlfriend, by gender: N.C. YRBS 2011

Percentage of N.C. high school students who were physically hurt on purpose by their boyfriend or girlfriend, by grade level: N.C. YRBS 2011

Percentage of N.C. high school students who were physically hurt on purpose by their boyfriend or girlfriend, by race/ethnicity: N.C. YRBS 2011

Percentage of N.C. high school students who reported ever been physically forced to have sexual intercourse when they did not want to, by gender: N.C. YRBS 2011

Weighted to provide estimates representative of the public high school student population; students who reported having been hit, slapped, or physically hurt on purpose by their boyfriend or girlfriend; students report ever been physically forced to have sexual intercourse when they did not want to. Specific data on 95 percent confidence intervals and regional definitions is at the N.C. YRBS website: www.nchealthyschools.org/data/yrbs.

*NH = Non-Hispanic **Caution when interpreting. Results based on small sample size

The N.C. Youth Risk Behavior Survey (N.C. YRBS) provides a critical source of public health data for understanding the scope of injury-related problems and measuring progress toward overall goals among public school students. N.C. YRBS is a comprehensive statewide sample of 2,000 middle and 2,300 high school students from across the state. Every other spring in odd years, a core set of injury-related questions are asked along with other health and risk-factor questions. Risk-factor variables include information such as alcohol use, seat belt use and physical assault. The sampling scheme is intended to generate a statewide representative sample of weighted data. Increasing school district participation and data utilization are two keys for future success. See the N.C. Healthy Schools website for more information: www.nchealthyschools.org.
